

HOW TO BUY UNION-MADE TIRES

The U.S. Department of Transportation requires that all tires sold in the United States carry a code which shows, among other things, the company and plant that made the tire. The code would look like this: DOT BE XX XXX XXX

The two symbols (either two letters or a letter and a number) which follow "DOT" indicate the company and the plant where a tire was manufactured. For example, the above code indicates a tire made by B.F. Goodrich in Tuscaloosa, AL.

The following is a listing of all U.S. and Canadian unionized tire plants and their DOT codes. By comparing this list to the code on the tire you are buying, you can be certain you are getting a United Steelworkers-made tire.

<u>Code</u>	<u>Company, City</u>	<u>Code</u>	<u>Company, City</u>
BE	B.F. Goodrich Tuscaloosa, AL	JJ	Goodyear Gadsen, AL
BF	B.F. Goodrich Woodburn, IN	MD	
		PU	
VE	Bridgestone/Firestone	DA	Dunlop Buffalo, NY
YE	Des Moines, IA		
YU		JN	Goodyear
8B		MJ	Topeka, KS
		PY	
D2	Bridgestone/Firestone	JE	Goodyear
E3	Lavergne, TN	MC	Danville, VA
W1		PT	
Y7			
2C	Bridgestone/Firestone	JT	Goodyear
4D	Morrison, TN	MK	Union City, TN
5D		TA	
UT	Cooper Texarkana, AR	JF	Kelly-Springfield
		MM	Fayetteville, NC
		PJ	
JU	Goodyear		
PC	Medicine Hat, Alberta	CC	Yokohama Tire
UK			Salem, VA
DY	Denman Tire Warren, Ohio		

★ Any Goodyear racing tire made in the United States is a USW-made tire.

★ Any Goodrich racing tire or off-the-road tire made in the United States is a USW-made tire.

In addition to company brands, these codes will also appear on *Associate Brand* and *Private Brand* tires manufactured at the above plants. The key, then, to being sure of getting a USW-made tire is the DOT code. Be sure and check it with this listing.
